International Association of Wildland Fire

IN PARTNERSHIP WITH

NWCG Smoke Committee &

UC Davis Air Quality Research Center

The 3rd International Smoke Symposium will bring together researchers from the atmospheric sciences, the ecological sciences, health sciences, mathematicians, computer sciences, climatologists, social scientists, and others to discuss the complex issues of smoke and identify knowledge gaps and opportunities for innovation and development.

The Symposium will be held in Raleigh, North Carolina with a satellite location at UC Davis Convention Center. The Symposium will be a hybrid, which combines in-person and streaming presentations.

The Symposium will be held in Raleigh, North Carolina with a satellite location at UC Davis Convention Center. The event will be a hybrid, which combines in-person and streaming presentations between the two locations.
